## gearing up for railways

An inclusive line of rail products... read ahead >>

# Our Profile

GAME is one of leading manufacturing unit with a vast experience in the field of Engineering Technology from concept to commissioning of various capital and critical mechanical equipments.

Our objective of customer satisfaction, through Innovation and Effective Quantity Management System, is a continuous process. We ensure Quality as the hallmark of every process and activity. Our efforts in the field of Quality Management have been well recognized by Quality Circle Forum of India and Zenith Quality Assessors Pvt. Ltd.

The company is engaged in serving the requirement of various industrial sectors like Railways, Power Plants, Cement Plants, Steel Plant, Sugar Plants, Aluminum Plants etc. Getting repeated orders from these customers further reflects our quality ethics and commitments.

# The commitment

Graduate Agro and Mechanical Engineers strives to be a leader in the industry in terms of product quality and value, and is completely committed to deliver products that meet industry specifications and our customer's requirements.

We ensure that the products and solutions we provide meet or exceed our customer's expectations. We comply with industry best practices and continually improve the effectiveness of our quality management system, delivering customized solutions to our clients in engineering, fabrication, forgings and casting industries.

Not only does GAME commit to excellence in our manufacturing, but in all of our internal business areas. Our technical experts bridge the gap from our table to those of our customers site. GAME experts use applied knowledge and real-life industry experience to ensure what is discovered in our premises is applied in customers' operations in a manner that will yield the highest possible return on investment.

Although we have over thirty five years of experience in providing high quality products to our clients from diversified industry sectors, we are continuously striving to incorporate process improvements.

COMMITTED TO HIGHER STANDARDS

Key

PASSIONATE FOR QUALITY, COMMITMENT & PERSISTENCE

# The Competence

At GAME, we follow a systematic and disciplined approach to every project we undertake, helping our clients to benefit from our competence. Fully understanding our client's requirements is of primary importance. Unmatched operational excellence, together with our ability to deliver highly finished products to our clients, has made GAME a trusted name among engineering and fabrication industries.

Our value engineering methodology helps us through a systematic study of design improvements and optimized manufacturing processes that achieve significant cost savings on overall product manufacturing. Our strong engineering and design capabilities are complemented with extensive manufacturing system. Customers can leverage these capabilities for their benefit.

All our technicians are given the freedom, tools, time and resources to apply their able competency for our customers. We believe in continuous improvement and change to meet the ever-changing needs of our customers and we will work until those needs are met.

Our greatest asset has been our team consisting of experts from the fields of Engineering, Finance, Administration etc. Along with the magnanimous manpower resources with whose support the company has achieved many laurels and scaled new heights.

The team consists of highly qualified and experienced personnel having the experience of working in prestigious organizations. The team is capable of accepting and accomplishing many challenges in the area of rapid growth of industrialization in India, particularly in Iron and Steel sector.

The team members are exposed to new technologies and innovations at our training centre to keep them abreast of latest developments.

Assessment of competencies is done by the section in-charge on regular basis and the performance of team members is monitored closely.

# The Solidarity

BEST INDUSTRY PRACTICES & OPERATIONAL EXCELLENCE

# Gearing up for Railways

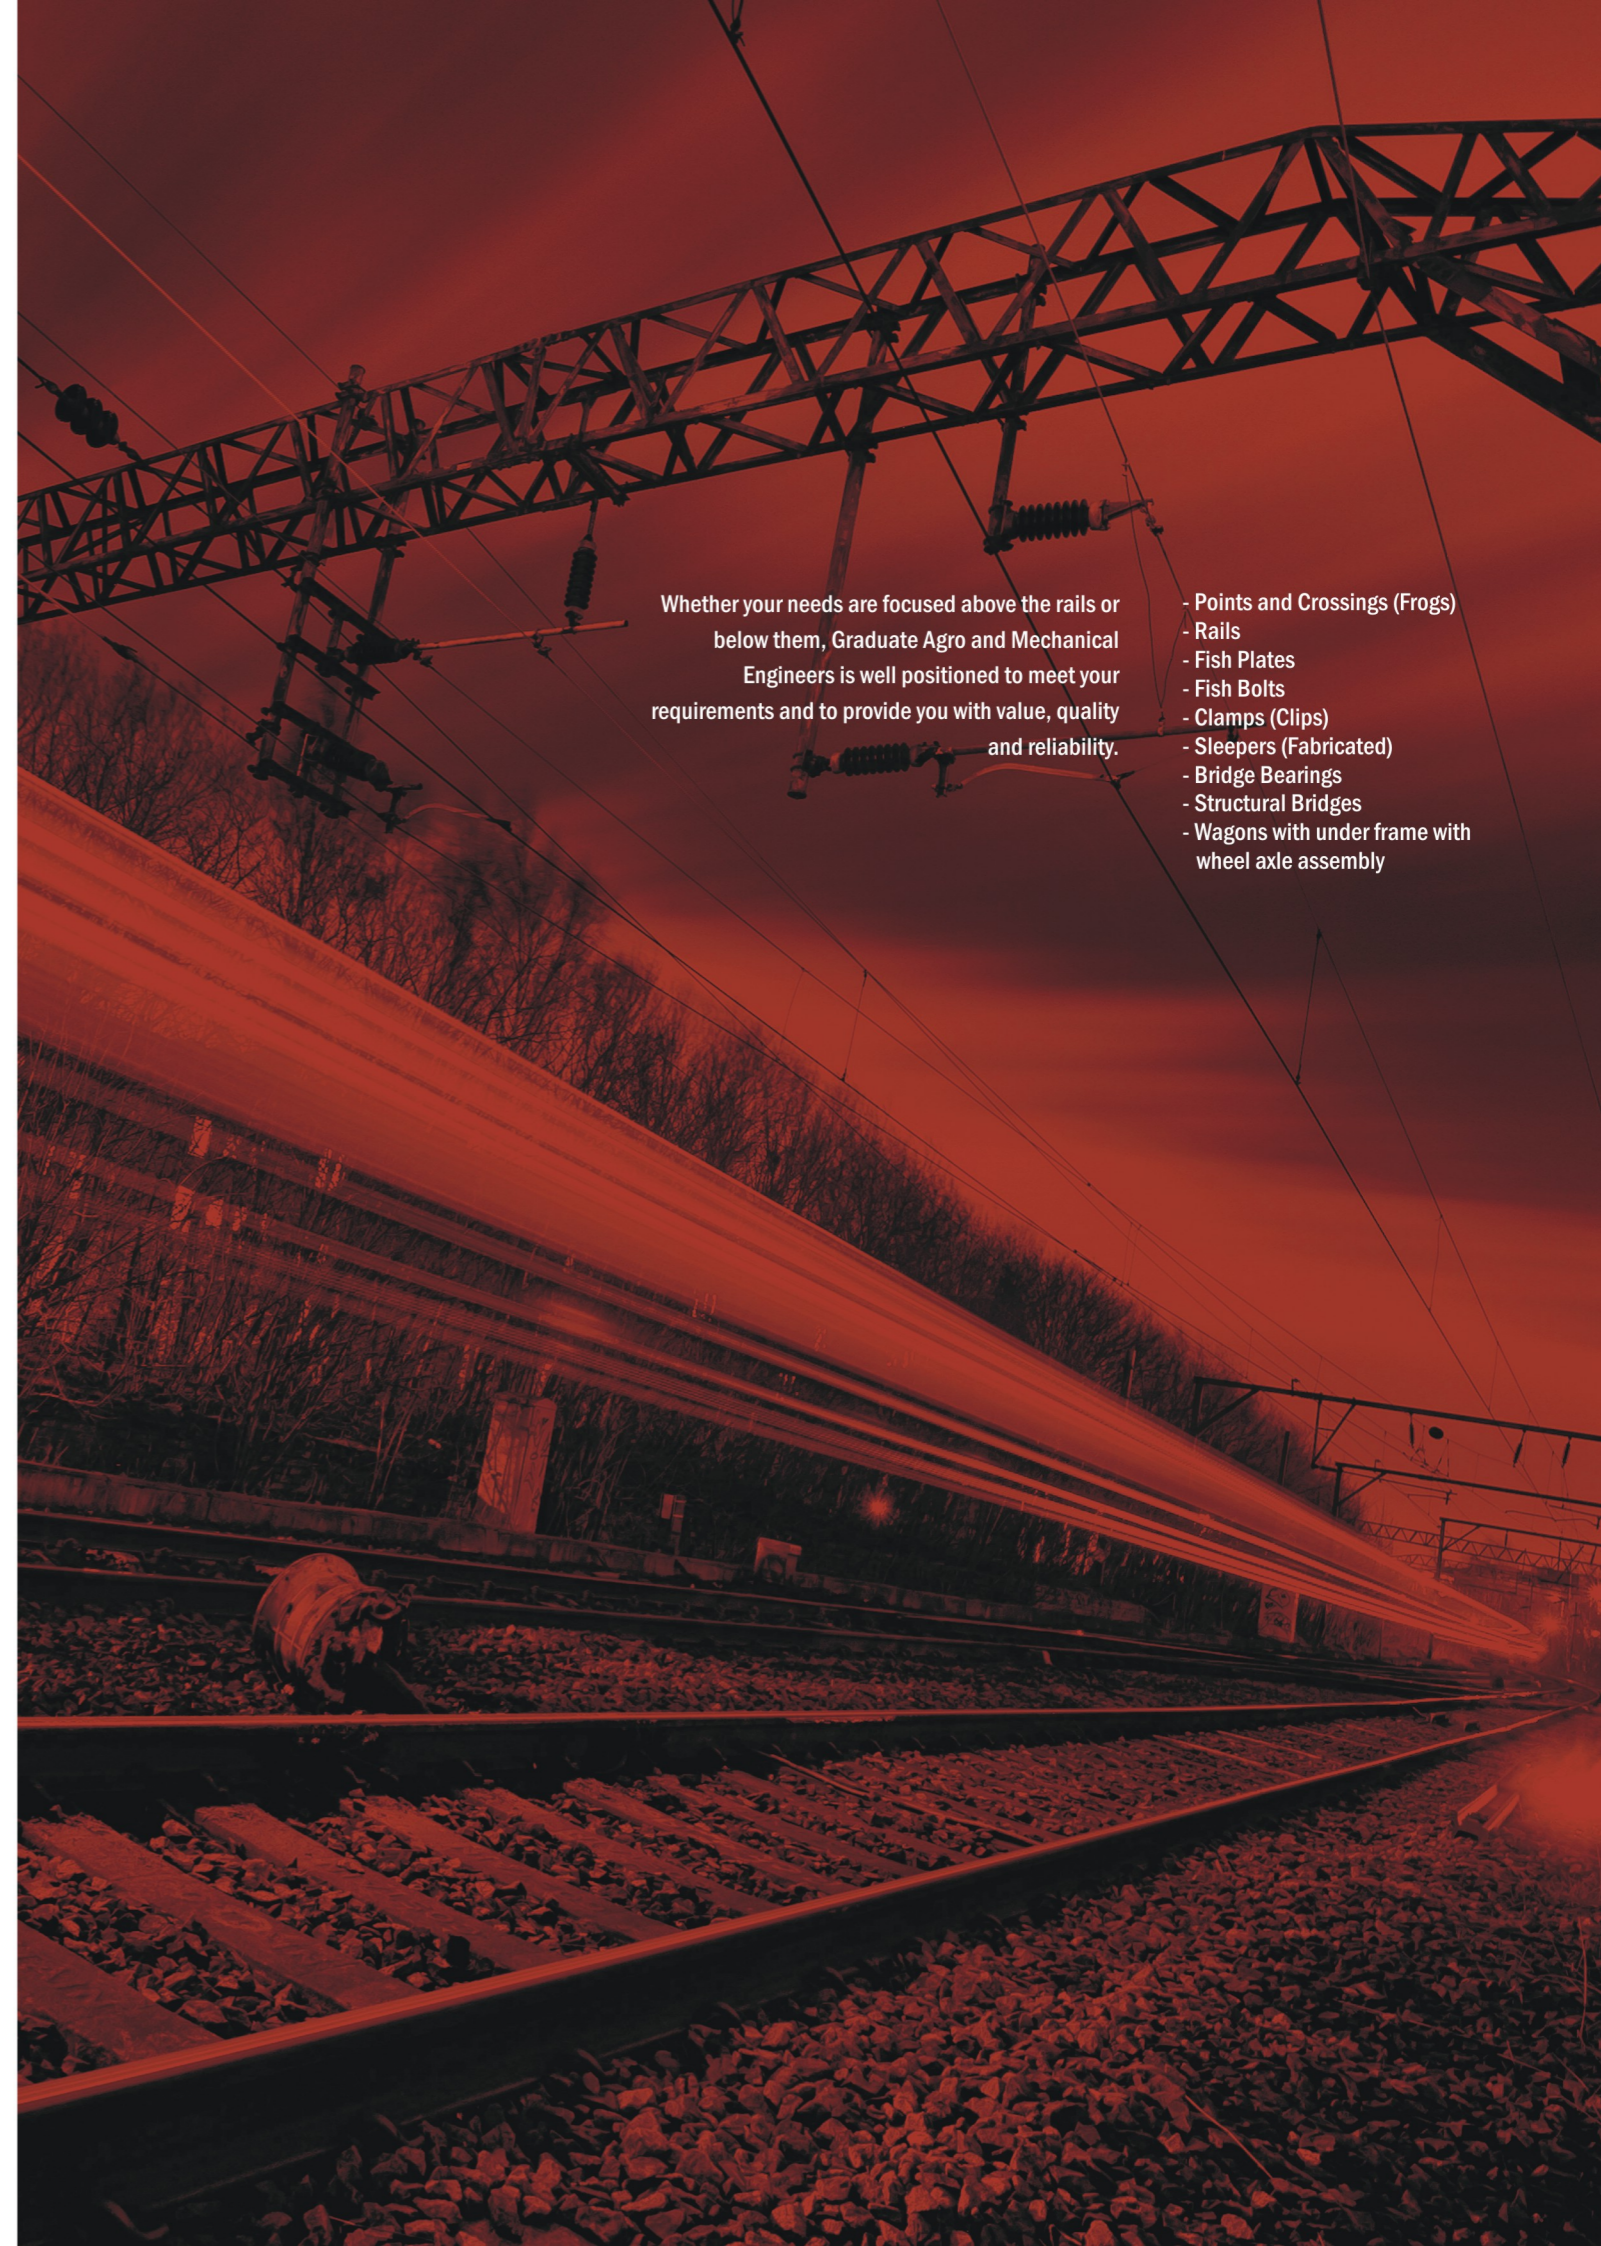

As the world's leading manufacturer of steel plant, mining, power plant, cement plants, sugar plants equipments, we are in a unique position to offer the inclusive line of railway solutions, including the most reliable, efficient turnouts and wagons to rails in every area of the world.

We deliver value by working closely with customers with latest technology to meet our customer's specifications. The Manufacturing team is committed to produce quality equipment that will ensure many years of reliable service in the field of railway track engineering.

Whether your needs are focused above the rails or below them, Graduate Agro and Mechanical Engineers is well positioned to meet your requirements and to provide you with value, quality and reliability.

- Points and Crossings (Frogs)
- Rails
- Fish Plates
- Fish Bolts
- Clamps (Clips)
- Sleepers (Fabricated)
- Bridge Bearings
- Structural Bridges
- Wagons with under frame with wheel axle assembly

# Bringing Together

We focus on supplying our customer's excellence in those solutions and products with the highest desire to gain total customer satisfaction, confidence, and enthusiasm. We hope to build reliability, trust, and friendships through honesty and integrity to ensure healthy long-term alliances.

We are passionate about delivering superior quality, engineering solutions to our clients and customers: our reputation and the loyalty of our clients and customers depend upon it.

We leverage our own engineering experience to improve our clients' serving performance, adopting a bringing-together approach.

GAME's experts combine their knowledge of engineering, technology and integrity to maximize quality, deadline delivery and flow complete satisfaction for our clients.

Our approach to bring clients together also ensures we are aligned with the needs of our clients. We've worked with companies in all major industries, including railways, steel, mining, sponge iron, copper and aluminum, cement industries in nationwide and abroad. We are proud to be associated with them and are delighted to be in a position to be able to serve them better.
